

I have a 3 hour commute I must make weekly, and I would not be able to get through it without XM. It's wonderful variety of programming; both news and entertainment help me along the way. The use of the Weather Channel, and other such traffic and weather services are things that I've come to depend on. I pay for XM radio service, and I don't see why the government or anyone else should dictate what I listen to on it. I love the service, and it is very useful. Please do not inhibit their first ammendment rights or my enjoyment. Thank you.
